1. Analysis of Bank's activity

1.1. Company's presentation

UniCredit Bank S.A. (the „Bank”) is part of UniCredit Group SpA, a pan-European Commercial bank with a unique service offering in Italy, Germany, Central and Eastern Europe and one of the main financial institutions in Romania, providing services and quality products for all client categories.

The Bank's current registered office is in Bucharest, 1F Expozitiei Boulevard, District 1, Romania. The Bank was established as a Romanian commercial bank as Banca Comerciala Ion Tiriac S.A. in 1991, which merged with HVB Bank Romania SA on 01.09.2006, resulting Banca Comerciala HVB Tiriac S.A. As a result of the merger by absorption of the former UniCredit Romania S.A. (the absorbed bank) by Banca Comerciala HVB Tiriac S.A. (the absorbing bank), the Bank is licensed by the National Bank of Romania to conduct banking activities.

UniCredit Bank S.A. is a joint stock company incorporated in 1991, registered with the Trade Register Bucharest under number J40/7706/1991, sole registration number (CUI) RO361536, registered with the Banking Register under number RB-PJR-40-011/1999, having EUID ROONRC J40/7706/1991, (http://www.bnro.ro/files/d/RegistreBNR/InstitCredit/ban1_raport.html).

As of 30 June 2022, UniCredit Group in Romania (the “Group”) consists of UniCredit Bank S.A. (the “Bank”) as parent company, and its subsidiaries, UniCredit Consumer Financing IFN S.A. (“UCFIN”), UniCredit Leasing Corporation IFN S.A (“UCLC”) and UniCredit Insurance Broker S.R.L (“UCIB”). Further details are available in the *Reporting entity note* presented in the *notes to the interim condensed consolidated financial statements for the period ended 30 June 2022*.

The businesses of the subsidiaries and the percentage stake of the Bank in its subsidiaries are presented within the *Interim condensed consolidated financial statements prepared in accordance with IFRS as endorsed by EU for 30 June 2022*.

As of 30 June 2022, UniCredit Group's activity has been operated through 165 branches and agencies (31 December 2021: 147) opened in Romania.

1.2. General evaluation in relation to the six-month period ended at 30 June 2022

For UniCredit Group, the first half of 2022 was marked by a positive evolution of the activity, based on the Romanian economy re-opening in the post-pandemic context and private consumption recovery. Throughout this period, the focus was set on consolidating the market position and risk management - the solid position on the market allowing the Group to continue to contribute to the recovery of the economy and to offer its clients high quality products and services.

UniCredit Group Romania has obtained a consolidated net profit of RON thousands 405,382 during the first six months of 2022, decreasing by 7.07% as compared to the same period of the previous year.

Following a year marked by uncertainties in the pandemic context, the lending activity accelerated significantly during the first half of 2022, both for companies and individuals, with new volumes financed higher than in the same period of last year.

In the first six months of 2022, the cost of credit risk improved due to the quality of the loan portfolio, significant recoveries and the resumption of payments from customers who benefited from their suspension in the context of the pandemic, and while non-performing loans' ratio decreased gradually.

UniCredit Group Romania obtained a consolidated operational income of RON thousands 1,172,044, 7.93% higher compared with the similar period of 2021, on the background of higher net fee and commission income and net interest income, following the increase of commercial volumes. The operational expenses registered an increase of 9.71%, in amount of RON thousands 51,270 as compared with June 2021, mainly due to the increase of the expenses with the contribution to the resolution fund and of various other expenses impacted by inflation (including salary expenses).

UniCredit Romania Group's key financial indicators in the first half-year of 2022 are as follows: the annualized return on equity (ROE) was 6.51%, while the annualized return on assets (ROA) reached 0.70%. Cost-income ratio was at 49.41%, slightly higher compared to the same period of the previous year due to higher operational expenses.

1.3. Assessment of the Group's technical level

UniCredit Bank's ambition is to be a truly digital bank, powered by data in everything we do; digitalisation of banking services for companies, and individuals forms the backbone of our strategy, with the aim of offering clients a high quality experience. In this context, during the first six months of 2022 we continued to promote the latest digital solutions, functionalities and alternative channels, offering customers the opportunity to interact digitally with the bank and to access products and services whenever and wherever they needed.

Thus, UniCredit Bank clients can access various digital features, including modern versions of Mobile Banking and Mobile Business applications, payments through Google Pay and Apple Pay, the "Add money" functionality (allowing easy and fast transfer of money into the UniCredit account from accounts open with other banks), the possibility to withdraw cash from UniCredit Bank's ATMs without using a card (mCash functionality in Mobile Banking), the possibility to withdraw euros from certain ATMs and, last but not least, the virtual voice guide loana in the Contact Center, that offers enhanced efficiency and improvement of the customer experience.

Among the products with a significant positive evolution in the first half of 2022, the virtual debit cards for individuals (Visa Classic and Visa Gold), which can be issued instantly from the Mobile Banking application, offer a rapid solution to customers' needs of solving everything on the spot, directly from their mobile phones, enjoying the advantages of cashless payments without having to take care of the "plastic". In the same time, the functionality in Mobile Banking that allows individuals with a credit or debit card from UniCredit to access ShopSmart, a dedicated program with approx. 100 cashback offers from online and offline merchants, proved a success. Last but not least, in response to a real need of the customers, UniCredit Bank S.A. has also expanded to country wide level the infrastructure that offers clients the possibility to withdraw cash in euro from UniCredit BNAs.

The digitalization trend also continued both within UniCredit Consumer Financing IFN SA, with an emphasis on simplified digital flows meant to improve customers' experience, and UniCredit Leasing Corporation IFN SA.

1.4. Assessment of sales activity

During the first six months of 2022, UniCredit Bank Romania continued to support the real economy, to be a reliable partner for its customers, both companies and individuals, and also to act with caution, in order to avoid any slippage that might occur under the straining economic environment. Throughout this period, the solid position of the Bank has allowed it to continue to contribute to the recovery of the economy, and to support its clients with financing solutions, including through guarantee programs such as IMM Invest, IMM PROD, GARANT CONSTRUCT, RURAL INVEST, and to continue to promote digitalization and innovation, strengthening its top position in the digital banking segment.

In recognition of the quality of the banking services offered, the Bank obtained in the first half of 2022 several prestigious awards. Within the 13th edition of the "Voted Product of the Year®" competition, an international concept that rewards innovative products, the Mobile Banking application from UniCredit Bank was selected as 2022 Product of the Year in the Mobile Banking category, while the GeniusIMM current account package from UniCredit Bank was awarded as 2022 Product of the Year in the SME Current Account category. The strong position of UniCredit in Romania was also recognized by the prestigious Euromoney Trade Finance Survey, which appointed UniCredit Bank in Romania with top honours in both 'Best Service' ranking, which assesses levels of customer service, and 'Market Leader' ranking, which combines penetration, percentage of business and turnover data to create an overall ranking of the best trade finance banks. In a second survey, Euromoney's 2022 Private Banking and Wealth Management has elected UniCredit as Best Private Bank and ESG/Sustainable investing in Romania. Last but not least, during the Biz Sustainability Awards Gala, UniCredit Bank received the Excellence Award from Biz Magazine for the Social Impact Banking Program, which identifies, finances and promotes people and businesses with a positive impact in the community, promoting quality education, gender equality, creating jobs, and reducing inequality.

Regarding the commercial activity in the corporate clients' segment, UniCredit Bank S.A. continued in 2022 to offer special financing conditions in terms of costs and guarantees, in the context of the various guarantee conventions to which it is part.

In particular, the European Investment Fund has extended the deadline for granting financial support in the context created by Covid-19 to June 30th, 2022, such as by increasing the guarantee percentage up to 90% (maximum 70% previously).

In this regard, in 2022 the Bank continued to:

- provide SMEs with access to financing under favourable conditions, which benefit from the guarantee in proportion of 60% for the value of the loan, through the SME Initiative, in order to set up new enterprises, expand current activity, consolidate activity, or realize new projects, including by addressing new markets. It is a guarantee instrument accessed by UniCredit Bank S.A. from the European Union, the program being financed by the EU

through EAFRD and Horizon 2020 and managed by the European Investment Fund and the European Investment Bank;

- provide to clients in agricultural segment with financing for working capital and investments, based on the Fund of Funds instrument that covers 50% of the amount, the funds coming from EAFRD, through the National program for agriculture and rural development, as well as from the national budget;
- provide micro-enterprises with a financing program in RON for current expenses with a maximum value of 25.000 Euro (or RON equivalent), 80% of the credit value being guaranteed through EaSI (an instrument accessed by UniCredit Bank S.A. and made available by EU through the European Investment Fund, part of the European Investment Bank Group);
- finance SME customers with a turnover up to 3 million Euro, by granting loans for current expenses, with a repayment schedule and 50% guarantee through COSME loan guarantee facility (LGF). COSME is a financial guarantee instrument offered by the EIF, which supports the development of companies and the research and innovation process.
- offer the loan facility with Cultural and Creative Sector guarantee through the European Investment Fund. As a response to Covid19 pandemic, EIF increased the guarantee percentage: 90% for transactions performed during the pandemic support period (until 30.06.2022), vs. 70%, guaranteed for transactions performed outside the pandemic support period.

A key pillar in the Bank's activity in 2022 continued to be the participation in the local risk sharing schemes set out by the Romanian state, to provide support to companies affected by the consequences of the pandemic. Thus, in the first half of 2022, through the IMM Invest Program and AGRO IMM Invest subprogram and also IMM PROD, GARANT CONSTRUCT, RURAL INVEST Programs (launched at the end of the mentioned period) credit facilities have been granted through the bank's own funds and state guarantees to companies operating in various business areas, such as manufacturing, construction, agriculture, food industry, IT, transportation and further more.

The Bank also financed SMEs and large enterprises through EximBank Guarantee, which consists of state aid granted under the provisions of the European Commission Communication concerning the State Aid Temporary Framework to support the economy during the current Covid19 pandemic. The percentage covered by the guarantee is 50% or 90% depending on the type of loan.

For example, in March 2022, UniCredit Bank and EximBank structured a financing with a total value of 15 million RON for the Ax Perpetuum Impex SRL, one of the main players on the Home & Deco market. In the same time, the Bank continued to support companies in the process of gradual transition to the green economy and making changes with a positive impact on the environment. For example, together with other banks, UniCredit Bank Romania participated in a syndicated loan for Green Group, the largest integrated recycling park in Central Europe, and in May 2022 successfully completed the granting of a syndicated

loan together with two other banks, with a total of 65.2 million euros, for Greenvolt - Energias Renováveis SA.

In the retail area, individual clients and SMEs, the bank continued in the first half of the year to offer new products and services, simplified processes and to promote the digitalization of the activity. For example, the implementation of the digitized process of granting real estate and / or mortgage loans allows customers who have applied for the desired mortgage product in an UniCredit Bank branch and have validated a personal e-mail address, to benefit from the possibility of sending online, through a dedicated platform, the documents related to the real estate, the documents needed to sign the contract, but also to receiving constant information about the status of the file, when available. Mortgage lending continued to be a central product in UniCredit Bank's portfolio for individuals, with the bank offering both competitive products and a transparent, simple lending process. At the same time, aiming at encouraging and promoting saving behaviours among the public, the Bank offered its clients several top commercial offers in terms of interests for term deposits in RON.

The beginning of 2022 brought a new strategic approach for UniCredit Group and its subsidiaries, ESG becoming incorporated in the business and in everything we do. Thus, in the first part of the year the Bank adapted and implemented locally the ESG strategy, set the governance and priorities. UniCredit has set sustainability targets to further reduce both its environmental impact and the exposure of its credit portfolio to controversial sectors.

In the financing area, we have adopted objectives for both green and social financing, in line with the group strategy. The Bank's objective is to support clients in the transition to a more sustainable and equitable economy. We continued to support businesses in the renewable energy and energy efficiency area, and the green mortgage loan for individuals continued to be one of the main requested products.

In terms of reducing the carbon footprint, the Bank launched the new virtual cards, an ESG initiative for non-lending products. In the first part of 2022 the "No plastic" initiative was adopted both at Group and local level. The bank distributed reusable metal drinking bottles, and the bottles, containers and plastic items were replaced in common spaces. Disposable plastic will be removed from all UniCredit buildings by the end of 2022.

UniCredit also reduces paper usage, by using digital scanning and archiving of a large number of documents as an alternative.

Part of the ESG strategy the financial and entrepreneurship education programs for technical high school students had 1280 beneficiaries and 9 volunteers from the bank in the first part of 2022, in the second part of the year, the Bank will continue the program for other beneficiaries, together with other volunteer colleagues.

UniCredit Consumer Financing IFN S.A. has optimized its refinancing sources in the context of increased liquidity cost and has offered customers competitive lending solutions in the current geopolitical context. Thus, for credit cards, clients benefited from the advantages offered within the interest-free instalments campaigns related to the tax type transactions, respectively the transactions performed at supermarket merchants, gas stations and utilities payment. Customers who chose to refinance credit cards / overdrafts held at other banks

also benefited from instalments with zero interest rate. Regarding the personal needs loan, UniCredit Consumer Financing IFN S.A. proposed to clients financing solutions adapted to their needs and advantageous conditions for the clients who choose to collect their income through UniCredit Bank or to purchase a life insurance. Last but not least, the features and processes related to credit products continued in the first half of 2022 the digitization trend, focusing on simplified digital flows to improve the customer experience among which: setting the PIN and enrolling in Apple Pay directly from Mobile Banking for credit cards issued by UniCredit Consumer Financing IFN S.A.

The environmental impact continued to be an essential direction for **UniCredit Leasing Corporation IFN S.A.**, as the company launched at the beginning of 2022 the „GoGreen” financial solution to encourages the purchase of 100% electric and hybrid cars, offering to all those interested in, benefits of structure and price. „GoGreen” is a financing alternative in line with UniCredit Leasing Corporation IFN S.A. strategy to help reduce the impact of CO2 emissions.

1.5. Assessment of the risk management activities

UniCredit Group continued to carefully analyse the current and potential risks, reflecting it through the appropriate level of provisioning. The main risks to which UniCredit Group is exposed are:

1.5.1. The foreign exchange risk

UniCredit Group is exposed to foreign exchange risk, as a consequence of its foreign exchange transactions performed in RON and in foreign currencies, respectively of the mix of currencies in which the assets and the liabilities are denominated.

The main foreign currencies held by UniCredit Group are EUR and USD. UniCredit Bank S.A strictly monitors and manages the foreign currency position and monitors the exposure to the internal limits set by internal procedures.

1.5.2. Interest risk

UniCredit Group faces interest rate risk that could be a result of exposure to unfavourable fluctuations on the market. The change of the interest rates on the market directly influences the income and expenses related to the financial assets and liabilities bearing variable interests, as well as the effective value of those bearing fixed interest rate.

Interest rate fluctuations can be a source of profit and increase in the value of shareholders' investment, but, at the same time they can pose a threat to the bank's revenues and capital. Variable interest rates influence the level of income through the effect on interest income and expenses as well as on other operating expenses and income that are sensitive to changes in rates; at the same time, they have an effect on the value generated by the bank by causing variations in the net present value of assets, liabilities and off-balance sheet items. In this regard, UniCredit Bank S.A has implemented risk management processes, which keep the interest rate risk within prudential limits.

Interest rate risk management outside the trading portfolio aims to optimize, in a normal market scenario, the risk return profile and create long-term value while reducing the negative impact on bank and regulatory capital gains from interest rate volatility.

UniCredit Bank S.A. monitors the exposure to interest rate risk through a system of indicators and associated limits: duration gap, basis point value, the VaR component of the interest rate outside the trading book, the sensitivity of net interest income and the change in economic value.

1.5.3. Credit risk

UniCredit Group is exposed to credit risk representing the risk of negative impact on revenues generated by debtors not fulfilling the contractual obligations of loans granted on short, medium or long run. In the assessment of credit risk, Bank takes into consideration the following sub-categories of the credit risk: counterparty credit risk and settlement risk, foreign currency risk, country risk, credit concentration risk and specialized lending risk.

This risk is managed through a set of comprehensive measures, both at transaction and debtor, and at global level, related to:

- Strict evaluation of debtors' creditworthiness and of credit applications;
- Continuous monitoring of the exposures in order to identify any changes that may affect negatively the overall risk position, in order to adopt the most appropriate solutions for preventing/reducing the potential losses;
- Computation of expected credit loss (ECL), in accordance with the legislation in force on international financial reporting standards (IFRS9) and in conjunction with the provisions of UniCredit Group policies;
- Capital allocation for unexpected credit risk losses, in accordance with regulatory requirements and UniCredit Group SpA regulations;
- Regular monitoring of the credit risk profile, in order to ensure compliance with the tolerance limits defined in accordance with the risk management strategy and the Bank's risk appetite.

In respect of ensuring a prudent management for credit counterparty risk, the UniCredit Bank S.A. deals with international banks with adequate ranking based on specific assessment criteria and strict internal rules. There are specific limits for the transactions with other banks related to deposits and foreign currency exchanges.

1.5.4. Operational risk

Operational risk means the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Operational risk includes legal risk, but excludes strategic and reputational risks. Legal risk is a subcategory of operational risk which the risk of losses as a result of fines, penalties and sanctions for which the credit institution is liable due to failure to apply or deficiently applying legal or contractual provisions, as well as due to

the fact that contractual rights and obligations of the bank and / or counterparty are not appropriately provided.

The operational risk management framework within UniCredit Bank S.A. is well structured and involves relevant factors in promoting a culture favourable to communication, management and control of operational risk. The framework is supported by the existence of a dedicated independent function for the control of operational risk, by a structure of relevant committees and by a system of reporting operational risk to the Management of the Bank.

The operational risk management system is integrated into the internal processes defined for the management of significant risks. The main tools employed in the management and control of operational risk are: collection of operational risk events, scenario analysis, operational risk indicators, mitigation actions and operational risk reporting.

The main objective of the operational risk management consists of implementing effective processes for the early identification of risk exposures as well as the definition and maintenance of a complex system of controls with proved efficient in preventing risks' materialization and mitigating their effects.

1.5.5. Liquidity risk

The liquidity risk is the probability of UniCredit Group falling short of its due payments resulting from its contractual relations with clients and third parties. Under normal conditions of market functioning, the liquidity risk may materialize also through the need for UniCredit Bank S.A to pay a premium over market rates to be able to access liquidity.

Among the main potential generators of liquidity risk, the Bank distinguishes between liquidity mismatch risk/refinancing risk, liquidity contingency risk, market liquidity risk.

Management of liquidity risk

In line with UniCredit Group's liquidity framework, the main goal of the overall liquidity management is to keep the liquidity exposure at such a level that UniCredit Bank S.A is able to honour its payment obligations on an on-going basis, but also during a crisis without jeopardizing its franchise value or its brand's name.

Hence, two main operating models for the liquidity management are defined: going concern liquidity management and the contingent liquidity management.

From a liquidity risk governance perspective, the Bank has two type of operational structures: managing bodies acting as strategic decision taking functions and operational units acting as operative liquidity management functions, i.e. Finance, Financial Risk, Markets-Treasury.

In accordance with the strategic goal of self-sufficient funding, the Group's liquidity and funding strategy is centred on:

- achieving a well-diversified customer funding base;

- development of strategic funding through own bonds issues and covered bonds issues;
- development of relations with various international financial institutions and foreign banks for special financing programs.

The liquidity cost benefit allocation is an important part of the liquidity management framework. Liquidity is a scarce resource and accordingly a proper management of costs and benefits is essential in order to support sound and sustainable business models. Therefore, the Bank has put in place a proper mechanism for internal funds' transfer pricing.

Exposure to liquidity risk

Key indicators used by UniCredit Bank S.A. for measuring liquidity risk are:

- the daily short-term liquidity report, through which cash inflows and outflows mainly coming from inter-bank transactions are monitored;
- the structural liquidity ratios/gaps, used to assess the proportion of medium-long term assets sustained with stable funding;
- regulatory indicators: UniCredit Bank S.A. has to comply with the limits imposed by National Bank of Romania, such as the liquidity indicator calculated according to NBR Regulation no. 25/2011 and the Liquidity coverage ratio, calculated according with to the provisions of Regulation 575/2013 and Regulation no. 61/2015;
- other key indicators for the management of liquidity and funding needs used to assess the liquid assets, the concentration of funding and the way in which loans to customers are sustained by commercial funds.

UniCredit Group sets the limit and triggers levels for the main indicators used to measure the liquidity risk and, in case a breach is observed or anticipated, specific requested actions are taken for correcting the structure of the asset and liability mix of UniCredit Bank S.A.

Regular stress testing assessments are performed in order to evaluate the liquidity position of UniCredit Group. In case of a deteriorating position, liquidity stress tests are one of the main metrics in order to support management's decisions before and also during stress situations. Liquidity stress test results are useful in order to assess the "right" sizing and composition of a liquidity buffer on a regular basis. As such, liquidity stress testing serves as an essential tool of assessment of the liquidity risk in an on-going basis, rather than in a crisis situation only.

1.6. Macroeconomic perspectives

Starting June 2021 the annual inflation rate entered on a rising trend due to consumption increase following the gradual elimination of the pandemic-related restrictions and the reopening of the economy. It continued to rise in Q3 2021 up to 6.3% in September mainly due to exogenous factors (the higher natural gas and electricity prices) as well as the liberalization in July of the electricity prices for households on the local market. As of December 2021 it reached 8.2% triggered by the supply bottlenecks, the global energy crisis

and the fourth pandemic wave. Only in one quarter (Q4 2021), the rise in international energy prices led to the hike of the domestic wholesale prices for natural gas and electricity by more than seven times, respectively four times in annual terms, the authorities being in the position to introduce as of 1 November 2021 a price cap scheme aiming to mitigate the negative effects of the high energy prices on households, in place by 31 March 2022, then prolonged by one more year. The conflict between Russia and Ukraine which began in February 2022 put an additional pressure on the prices of energy, food and raw materials, the annual inflation continuing to rise in the first half of 2022 up to a record 14.5% in May. We estimate that it will end the year above 14%.

In this context, NBR had to start a new monetary tightening cycle with two 25bp key rate hikes in Q4 2021, bringing the monetary policy rate at 1.75% at the end of 2021. It continued with another 25bp in January 2022 and accelerated to 50bp in February, the key rate doubling at 2.5% from the minimum of 1.25% a year before. In April, NBR hiked the key rate by another 50bp to 3% and in May it hiked the policy rate to 3.75% aiming to temper the high inflation. On July 6, NBR delivered a 1pp rate hike to 4.75%, while NBR's tightening pace is still behind its regional peers as it avoids to put an excessive pressure on borrowers and the banking sector and on the economic growth.

The level of minimum reserve requirements (MRR) for the foreign currency liabilities remained unchanged at 5% (latest cut from 6% in November 2020) and at 8% for RON (latest cut from 10% in May 2015).

NBR will further manage tightly the market liquidity. Market liquidity management remains an important monetary policy instrument, NBR organizing periodic depo operations to sterilize the excess liquidity in the market, in order to ensure relatively stable ROBOR rates. In 2022, the monetary conditions are likely to stay tight, given the high inflation and the need for stricter fiscal policy.

Despite the difficult period, the banking sector remained in a good shape, with the capital adequacy and liquidity indicators way above minimum thresholds (CAR 21.4% as of March 2022, LCR 212%, NSFR 174%). The sector achieved a record net profit RON 8.3bn in 2021 (+66% YoY) and RON 1.96bn in Q1 2022, supported by higher lending growth, higher interest rates for loans starting Q4 2021 and higher fee and commission revenues.

The asset quality continued to improve, non-performing loans ratio declining at 3.3% (-0.6pp YoY), while the coverage by provisions ratio 67.2% increased significantly (from 63% in December 2020). For now, we do not see a high risk for the credit quality, but the credit risk could increase if the economy is slowing down.

The stock of total loans reached RON 345.3bn at the end of May 2022, recording an increase of 16.5% compared to the same month of the previous year, supported by a pickup in the economic activity after the Covid-related restrictions were removed and by the higher propensity to invest and consume, especially in the second half of 2021. The stock of RON loans rose by 20.0% YoY and the one of the foreign currency loans by 8.2% YoY. Loans to households increased by 9.3% YoY in May 2022, supported by a 14.4% growth of RON-denominated loans, in spite of the 12.5% contraction of the foreign currency stock. The loans granted to companies increased strongly post-pandemic as the most of the economic sectors

resumed their activity, with the RON component up by 28.4% YoY and the foreign currency component by 18.8% YoY.

The savings continued to increase, albeit at a slower pace as compared to the previous year. Total deposits of households and companies reached a RON 481.1bn level in May 2022, increasing by 10.4% YoY, with the foreign currency component up by 18.1% YoY. Households' deposits share declined to 59% of the total deposits (vs. 61% as of May 2021), the household deposits increasing moderately by 6.2% YoY in May 2022, driven by the foreign currency component (15.3%), while the RON component slightly decreased (-0.2% YoY). Companies' deposits increased by 14.2% YoY for the RON component and strongly by 25.3% YoY for the foreign currency component.

1.7. Integrity/Corporate Social Responsibility

For over 15 years, UniCredit Bank S.A. has supported some of the most important financial and entrepreneurial education projects, community and social initiatives, as well as projects for the development of the cultural and artistic community in Romania, in cooperation with various non-governmental organizations and other partners.

Social impact projects

In 2022, the bank continued its Social Impact Banking (SIB) program as part of UniCredit Group's commitment to building a fair and inclusive society. The objective of the program is to identify, finance and promote people and businesses that have a positive social impact, in order to generate both economic benefits and broader societal benefits. Beyond financing projects and organizations that are generally excluded from accessing banking products and services, SIB offers UniCredit Group the opportunity to share financial and business expertise through educational programs dedicated to micro-entrepreneurs, social affairs, vulnerable or disadvantaged groups, including young people, older people and other people at risk of social exclusion. Employee involvement is an essential component in the implementation of SIB actions, which supports the building of valuable networks in the communities where the bank operates.

Among the projects carried out in 2022 under the umbrella of the SIB program, between May and June 2022 began the third edition of Start Major, the financial and career education program developed for students in vocational and technical schools. The first two modules brought this year over 1400 young people eager to increase their chances of financial independence and career success. Financial education courses were held in 20 high schools and employment workshops in another 10. This edition is organized in partnership with the Social Incubator Association, with the involvement of 9 employees of UniCredit Bank S.A. in the role of volunteer trainers for the first two modules.

Educational projects (digital education, entrepreneurship)

We believe that a sustainable business model is vital to our long-term financial health, to the economic and social well-being of our clients, as well as for the communities in which we operate.

UniCredit Bank S.A. has traditionally supported financial education and entrepreneurship programs, both in the art and culture area, as well as in business and education, with a special affinity in the area of digital art and young artists, as well as supporting entrepreneurship. In this respect, the bank has been involved in projects that have brought to attention emerging technologies, provided support and grants within a digital platform of entrepreneurial education, contributed to the development of entrepreneurial residences and joined numerous entrepreneurial education actions. Among the supported projects are: New Media Art Radar Festival, Future Digital Program, Teach for Romania Digital Educational Program & Podcast, RomanESTI - digital platform for entrepreneurial education & grants, Brand Minds, Digital Education Program & Conference organized by RGDA, Techsylvania Offline International Conference in Cluj-Napoca, Romanian Design Week, Romanian Creative Week, etc.

Cultural projects

We have the responsibility to offer back, to educate, to make our contribution to the development of the society we operate in. The relationship of UniCredit Bank S.A. with the communities in which it operates has naturally evolved as it actively engages in projects, year after year, having a long tradition in supporting culture, from the conviction that this is a way to promote social and economic progress, but also to encourage the dialog on innovation, social cohesion and a sense of belonging. In the cultural area, UniCredit was and still is, one of the most active supporters, assuming a role as a long-term partner.

One of the longest-running projects UniCredit Bank has been involved in over time is the Sibiu International Theatre Festival, which reached its 29th edition this year, a true cultural landmark in Romania, but also around the world.

UniCredit was this year also the official partner for the launch of R.M.N. in Romania, the latest film by director Cristian Mungiu, selected in the competition of the Cannes Festival.

A series of festivals come to complement UniCredit's presence in the communities in which it operates: Nostalgia, the Mission – Miez, Weekend Sessions at Botanical Garden, Cathedral, Nocturne de poezie (poetry evenings), SoNoRo scholarships, Garana Jazz Festival, etc.

Health projects

UniCredit Bank S.A. continues to support Volunteer for Life Association, for the construction of the modular emergency hospital in Bicaz, Neamt County – UPU SMURD, a project that is soon coming to life.

The bank also continues the support for the causes of the associations Zi de Bine, Calea Ariadnei, Merci Charity Boutique, Concordia Humanitarian Organization, Daruieste Viata (support for the creation of a Center of Excellence in the treatment of Retinoblastoma for children), as well as involvement in sports projects, among which we mention the Romanian Fencing Federation, the Romanian Rowing Federation, Inimi Visinii (scholarships for underprivileged children).

2. Tangible and intangible assets of the Group

Tangible and intangible assets of the UniCredit Romania Group (net amount) were in the amount of RON thousands 708,025 at the end of first half of 2022 (including assets representing right of use from IFRS 16), compared to RON thousands 664,007 as of 31 December 2021, a relatively stable evolution.

Adunarea Generală Ordinară a Acționarilor UniCredit Bank S.A., persoană juridică română organizată sub forma unei societăți pe acțiuni, administrată în sistem dualist, cu sediul social în București, Bulevardul Expoziției nr. 1F, sectorul 1, România, înregistrată în Registrul Bancar sub nr. RB-PJR-40-011/18.02.1999 și la Registrul Comerțului sub nr. J40/7706/1991, EUID: ROONRC J40/7706/1991, cod unic de înregistrare RO 361536, (denumită în continuare „Banca”), a fost convocată pentru data de 21.02.2022, începând cu ora 09.00 World Trade Center București, situat în București, Piața Montreal, nr.10, sector 1, sala de conferințe "Montreal", în prezența acționarilor înscrși în Registrul acționarilor Băncii la data de referință 02.02.2022, ce reprezintă 98,64 % din totalul drepturilor de vot.

Adunarea Generală Ordinară a Acționarilor a fost convocată în mod legal de către Directoratul Băncii prin publicarea convocatorului în Monitorul Oficial al României, partea a IV-a, nr. 270 din data de 18.01.2022 și în ziarul „România Liberă” din data de 18.01.2022, precum și pe pagina de internet a Băncii, potrivit prevederilor art. 117 și art. 117² al. 2 din Legea nr.31/1990 privind societățile, republicată, cu modificările și completările ulterioare.

Asupra aspectelor înscrise la punctul 1 pe ordinea de zi, Adunarea Generală Ordinară a Acționarilor a aprobat, cu 99,98 % din voturile exprimate de acționarii prezenți sau reprezentați la Adunarea Generală Ordinară a Acționarilor Băncii:

1. Aprobarea numirii doamnei Teodora Aleksandrova Petkova in functia de membru al Consiliului de Supraveghere al Bancii, pentru un mandat de 3 ani, respectiv de la data de 25.02.2022 pana la data de 25.02.2025. Doamna Teodora Aleksandrova Petkova isi va exercita responsabilitatile dupa obtinerea aprobarii prealabile a Bancii Nationale a Romaniei.

Asupra aspectelor înscrise la punctul 2 pe ordinea de zi, Adunarea Generală

Ordinară a Acționarilor a aprobat, cu 100 % din voturile acționarilor prezenți sau reprezentați la Adunarea Generală Ordinară a Acționarilor Băncii:

2. Având în vedere ajungerea la termen a mandatelor unora dintre membrii existenți ai Consiliului de Supraveghere al Băncii, acționând în calitate de membri independenți, aprobarea prelungirii mandatelor acestora, după cum urmează:

2.1. Aprobarea prelungirii mandatului domnului Pasquale Giamboi de membru al Consiliului de Supraveghere (deținând în prezent funcția de Președinte al Consiliului de Supraveghere), pentru un nou mandat de 3 ani, de la data de 25.02.2022 până la data de 25.02.2025.

2.2. Aprobarea prelungirii mandatului domnului Faik Huseyin Acikalin de membru al Consiliului de Supraveghere al Băncii pentru un nou mandat de 3 ani, de la data de 25.02.2022 până la data de 25.02.2025.

Asupra aspectelor înscrise la punctul 3 pe ordinea de zi, Adunarea Generală Ordinară a Acționarilor a aprobat, cu 100 % din voturile acționarilor prezenți sau reprezentați la Adunarea Generală Ordinară a Acționarilor Băncii:

3. Aprobarea imputernicirii Președintelui Executiv al Băncii și a oricărui dintre Vicepreședinții Executivi ai Băncii să semneze orice documente ce vor fi întocmite în baza hotărârii Adunării Generale Ordinare a Acționarilor, precum și să îndeplinească toate acțiunile și formalitățile necesare pentru înregistrarea și/sau publicarea hotărârii Adunării Generale Ordinare a Acționarilor și/sau a oricărui documente, potrivit reglementărilor legale în vigoare. Președintele Executiv al Băncii și, respectiv, oricare dintre Vicepreședinții Executivi ai Băncii pot împuternici oricare 2 (doi) salariați ai Băncii pentru aducerea la îndeplinire a acestui mandat.

Întrucat nu au mai existat alte probleme de discutat, doamna Diana Ciubotariu a declarat închise lucrările Adunării Generale Ordinare a Acționarilor UniCredit Bank S.A.

**EXTRAS DIN DECIZIA
CONSILIULUI DE SUPRAVEGHERE AL UNICREDIT
BANK S.A.
DIN DATA DE 24.02.2022**

Consiliul de Supraveghere al UniCredit Bank S.A. ("Banca"), în baza prevederilor Actului Constitutiv al Băncii și a dispozițiilor legale în vigoare și în conformitate cu informațiile prezentate în cadrul ședinței care a avut loc în data de 24.02.2022,

Referitor la punctul nr. 6 de pe agendă

Decide în unanimitate după cum urmează:

1. Se ia act **(i)** de încetarea mandatului de Membru al Directoratului Băncii al dlui Philipp Gamauf și, pe cale de consecință, de retragerea sa din funcția de Vicepreședinte Executiv al Directoratului Băncii, coordonator al Diviziei Financiare (CFO), începând cu data de 01.03.2022 și **(ii)** de activarea de către Comitetul de Nominalizare a procesului de succesiune pentru ocuparea poziției ce va deveni astfel vacantă.
2. Pentru a se asigura gestionarea adecvată a activităților în domeniile de activitate corespunzătoare, dna Feza Tan, Prim Vicepreședinte Executiv al Directoratului Băncii, este autorizată să exercite temporar oricare și toate competențele interne de decizie/ drepturile de semnătură ce aparțin poziției de CFO, Vicepreședinte Executiv al Directoratului Băncii **(i)** până la data la care succesorul pentru poziția de CFO va fi identificat, nominalizat și va primi aprobarea prealabilă a Băncii Naționale a României, dar **(ii)** nu mai târziu de data de 01.08.2022.

**EXTRACT FROM THE DECISION OF THE
SUPERVISORY BOARD OF
UNICREDIT BANK S.A.
AS OF 24.02.2022**

The Supervisory Board of UniCredit Bank S.A. ('the Bank'), based on the provisions of the Constitutive Act of the Bank and on the legal provisions in force and in accordance with the information presented during the meeting held on 24.02.2022,

Regarding point no. 6 on the agenda

Unanimously decides as follows:

1. Acknowledges **(i)** the termination of the mandate of Mr. Philipp Gamauf as Member of Management Board of the Bank and, as a consequence, of his withdrawal from the position of Executive Vice-President of Management Board of the Bank, coordinator of Finance Division (CFO), starting with 01.03.2022, and **(ii)** the activation by the Nomination Committee of the succession process for the position thus becoming vacant.
2. In order to ensure the proper management of the activities in the corresponding domains of activity, Mrs. Feza Tan, First Executive Vice President (Deputy CEO) of the Management Board, is hereby authorized to temporarily exercise any and all internal decision competencies/ signature rights corresponding to the position of CFO, Executive Vice-President of the Management Board **(i)** until the date on which the successor for the CFO position will be identified, nominated and receive the prior approval of the National Bank of Romania, but **(ii)** not later than 01.08.2022.

Președinte al Consiliului de Supraveghere / President of the Supervisory Board

Pasquale GIAMBOI

Secretar de ședință / Secretary of the meeting

Loredana PĂNCULESCU

**EXTRAS DIN DECIZIA
CONSILIULUI DE SUPRAVEGHERE
AL UNICREDIT BANK S.A.
DIN DATA DE 24.03.2022**

Consiliul de Supraveghere al UniCredit Bank S.A. ("Banca"), în baza prevederilor Actului Constitutiv al Băncii și a dispozițiilor legale în vigoare și în conformitate cu informațiile prezentate în cadrul ședinței care a avut loc în data de 24.03.2022,

**Referitor la punctul nr. 4.1. de pe agendă
"Aprobarea numirii noului CFO - Membru al Directoratului
Băncii"**

Având în vedere poziția vacantă de CFO, Vicepreședinte Executiv al Directoratului Băncii, rezultată ca urmare a încetării mandantului de Membru al Directoratului Băncii al dlui Philipp Gamauf prin retragerea sa din funcție,

Decide în unanimitate după cum urmează:

1. Se numește începând cu data de 01.04.2022, în funcția de Membru al Directoratului Băncii, Vicepreședinte Executiv, Coordonator al Diviziei Financiar, dl Stefano Suppressa, _____, născut la data de _____ posesor al CI nr. _____.
2. Durata mandantului dlui Stefano Suppressa va fi egală cu durata rămasă până la expirarea mandantului Directoratului Băncii, respectiv până la data de 17.04.2023.
3. Dl Stefano Suppressa va începe să-și exercite atribuțiile de Membru al Directoratului Băncii, Vicepreședinte Executiv, Coordonator al Diviziei Financiar numai începând de la data primirii aprobării prealabile din partea Băncii Naționale a României.

Independent Auditors' Report on Review of Interim Condensed Consolidated and Separate Financial Statements (free translation¹)

To the Shareholders of UniCredit Bank S.A.

Introduction

We have reviewed the accompanying interim condensed consolidated and separate statement of financial position of UniCredit Bank S.A. ("the Bank") as at 30 June 2022, the interim condensed consolidated and separate statements of comprehensive income, changes in equity and cash flows for the six-month period then ended, and notes to the interim financial statements ("the interim condensed consolidated and separate financial statements"). Management is responsible for the preparation and presentation of this interim condensed consolidated and separate financial statements in accordance with IAS 34 "Interim Financial Reporting" as endorsed by the European Union. Our responsibility is to express a conclusion on these interim condensed consolidated and separate financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410 "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim condensed consolidated and separate financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated and separate financial statements as at and for the six-month period ended 30 June 2022 are not prepared, in all material respects, in accordance with IAS 34 "Interim Financial Reporting" as endorsed by the European Union.

¹ TRANSLATOR'S EXPLANATORY NOTE: The above translation of the auditors' report is provided as a free translation from Romanian which is the official and binding version and refers to the Romanian version of the interim condensed consolidated and separate financial statements which was subject to our review.

Emphasis of Matter - comparative information

We draw attention to Note 3 to the interim condensed consolidated and separate financial statements which indicates that the comparative information presented as at 31 December 2021 and for the six-month period ended 30 June 2021 has been restated. Our conclusion is not modified in respect of this matter.

Other matter – comparative information

The interim condensed consolidated financial statements of the Bank as at and for the six-month period ended 30 June 2021, excluding the adjustments described in Note 3, were reviewed by another auditor, who expressed an unmodified conclusion on those financial statements on 28 July 2021.

The consolidated and separate financial statements of the Bank as at and for the year ended 31 December 2021, excluding the adjustments described in Note 3, were audited by another auditor, who expressed an unmodified opinion on those financial statements on 25 February 2022.

The interim condensed separate financial statements of the Bank as at and for the six-month period ended 30 June 2021 were not audited, nor reviewed.

As part of our review of the interim condensed consolidated and separate financial statements as at 30 June 2022 and for the six-month period then ended, we reviewed the adjustments described in Note 3 that were applied to restate the comparative information presented as at 31 December 2021 and for the six-month period ended 30 June 2021. We were not engaged to audit, review, or apply any procedures to the interim condensed consolidated and separate financial statements as at and for the six-month period ended 30 June 2021 or to the consolidated and separate financial statements as at and for the year ended 31 December 2021, other than with respect to the adjustments described in Note 3 to the interim condensed consolidated and separate financial statements. Accordingly, we do not express any form of assurance on those respective financial statements taken as a whole. However, nothing has come to our attention that causes us to believe that the adjustments described in Note 3 are not appropriate or have not been properly applied, in all material respects.

Executive Vice-President

UniCredit Bank Internal Use Only

The accompanying notes form an integral part of these interim condensed consolidated financial statements.
Convenience translation in English of the original Romanian version.

1. REPORTING ENTITY

The UniCredit Group (the “Group”) consists of UniCredit Bank S.A. (the “Bank”) as mother company and its subsidiaries, UniCredit Consumer Financing IFN S.A. (“UCFIN”), UniCredit Leasing Corporation IFN S.A (“UCLC”) and UniCredit Insurance Broker S.R.L. (“UCIB”). These interim condensed consolidated financial statements comprise the Bank and its subsidiaries.

UniCredit Bank S.A. (the “Bank”), having its current registered office at 1F, Expozitiei Boulevard, District 1, Bucharest, Romania was established as a Romanian commercial bank on 1 June 2007 upon the merger by acquisition of the former UniCredit Romania S.A. (the absorbed bank) by Banca Comerciala HVB Tiriac S.A. (the absorbing bank) and is licensed by the National Bank of Romania to conduct banking activities.

The Bank provides retail and commercial banking services in Romanian Lei (“RON”) and foreign currency for private individuals and companies. These include: accounts opening, domestic and international payments, foreign exchange transactions, working capital finance, medium and long term credit facilities, retail loans, bank guarantees, letter of credits and documentary collections.

UniCredit Bank S.A. is directly controlled by UniCredit SpA (Italy), with registered office in Milano, Piazza Gae Aulenti, 3.

The Group is exercising direct and indirect control over the following subsidiaries:

- UniCredit Consumer Financing IFN S.A., having its current registered office at 1F, Expozitiei Boulevard, 6th floor, District 1, Bucharest, Romania, provides consumer finance loans to individual clients. The Bank has a shareholding of 50.10% in UCFIN since January 2013.
- UniCredit Leasing Corporation IFN (“UCLC”), having its headquarters in 1F, Expozitiei Boulevard, 1st, 7th and 8th floor, District 1, Bucharest, Romania, provides financial leasing services to corporate clients and individuals. UCLC, the former associate, has become the Bank's subsidiary since April 2014 when the Bank gained indirect control of 99.95% (direct control: 99.90%). The Bank's indirect controlling interest as of 31 December 2020 is 99.98% (direct control: 99.96%) as a result of the merger by absorption of UniCredit Leasing Romania SA (“UCLRO”) by UCLC finalized in June 2015, the date at which UCLRO was absorbed by UCLC.
- UniCredit Insurance Broker S.R.L. (“UCIB”), having its current registered office in 23-25 Ghetarilor Street, 2nd floor, 1st district, Bucharest, Romania, intermediates insurance policies related to leasing activities to legal entities and individuals, and became a subsidiary of the Bank beginning with 31 December 2020. The Bank has an indirect controlling interest of 99.98% through UCLC which owns 100% UCIB.

As at 30 June 2022 the Group carried out its activity in Romania through its Head Office located in Bucharest and through its network, having 165 branches (31 December 2021: 147) in Bucharest and in the country.

Notes to the interim condensed consolidated and separate financial statements for the six months period ended 30 June 2022

2. BASIS OF PREPARATION

a) Statement of compliance

These interim condensed consolidated financial statements have been prepared in accordance with IAS 34 – “Interim Financial Reporting”. These financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the consolidated and separate financial statements of the Group as at and for the year ended 31 December 2021.

However, certain notes are included to explain the events and transactions that are significant to understand the changes in the financial position and performance of the Group and the Bank compared to the last separate and consolidated annual financial statements from and for the financial year ended 31 December 2021 .

The consolidated and separate financial information for the 6-month period ended June 30, 2022 are unaudited. The consolidated financial information for the 6-month period ended June 30, 2021 is unaudited. The separate financial information for the 6-month period ended June 30, 2021 is unaudited and unreviewed.

b) Basis of measurement

The interim condensed consolidated financial statements have been prepared as follows:

Items	Measurement basis
Financial instruments at fair value through profit or loss	Fair value
Loans and advances to customers	Amortized cost
Financial assets (debt instruments) at amortized cost	Amortized cost
Financial assets at fair value through other comprehensive income	Fair value
Lands and buildings	Fair value
Investment property	Fair value
Other fixed assets and intangible assets	Cost
Derivatives designated as hedging instruments	Fair value
Designated financial assets and financial liabilities designated as hedged items in qualifying fair value hedging relationships	Amortized cost adjusted for hedging gain or loss

c) Functional and presentation currency

The interim condensed consolidated financial statements are presented in Romanian Lei thousands (“RON thousands”), which is the functional and presentation currency. All values are rounded to the nearest RON thousands, except when otherwise indicated. The tables in this report may contain rounding differences.

d) Use of estimates and judgements

The preparation of interim condensed consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

In particular, information about significant areas of estimation uncertainty and critical judgments made by management in applying accounting policies that have the most significant effect on the amount recognized in the interim condensed consolidated financial statements are described in notes 4 and 5.

e) Foreign currency

Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies at the end of reporting period are translated to RON at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognized in the income statement.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Notes to the interim condensed consolidated and separate financial statements for the six months period ended 30 June 2022

2. BASIS OF PREPARATION (continued)

e) Foreign currency (continued)

Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to RON at foreign exchange rates ruling at the dates when the fair value was determined.

The exchange rates of major foreign currencies were:

Currencies	30 June 2022	31 December 2021	Variation
Euro (EUR)	1: RON 4.9454	1: RON 4.9481	-0.05%
Dollar USA (USD)	1: RON 4.7424	1: RON 4.3707	8.50%

f) Accounting for the effect of hyperinflation

Romania has previously experienced relatively high levels of inflation and was considered to be hyperinflationary as defined by IAS 29 "Financial Reporting in Hyperinflationary Economies" ("IAS 29"). IAS 29 requires that the financial statements prepared in the currency of a hyperinflationary economy to be restated in terms of the measuring unit current at the end of reporting period (i.e. non-monetary items are restated using a general price index from the date of acquisition or contribution). As the characteristics of the economic environment of Romania indicate that hyperinflation has ceased, effective from 1 January 2004, the Group no longer applies the provisions of IAS 29.

Accordingly, the amounts expressed in the measuring unit current at 31 December 2003 are treated as the basis for the carrying amounts in these interim condensed consolidated financial statements.

g) Basis of consolidation

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an investee if and only if the investor has all of the following elements:

- power over the investee, the investor has existing rights that give it the ability to direct the relevant activities (the activities that significantly affect the investee's returns);
- exposure, or rights, to variable returns from its involvement with the investee;
- the ability to use its power over the investee to affect the amount of the investor's returns.

In assessing control, potential voting rights that presently are exercisable or convertible are taken into account.

The financial statements of subsidiaries are included in the interim condensed consolidated and separate financial statements from the date that control commences until the date that control ceases.

As of 30 June 2022 The Group consists of the Bank and its subsidiaries UCFIN, UCLC and UCIB.

As of 31 December 2021 The Group consists of the Bank and its subsidiaries UCFIN, UCLC, DEBO and UCIB.

Debo Leasing S.R.L. ("DEBO") was a real estate finance lease entity and became a subsidiary of the Bank beginning with April 2014. The Bank had an indirect controlling interest of 99.97% through UCLC. Considering that Debo's portfolio contracts expired in May 2021, the company was liquidated during December 2021.

The Group decided to measure non-controlling interest at its proportionate share of the recognised amount of the identifiable net assets at the acquisition date.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized gains arising from intra-group transactions have been eliminated in preparing the interim condensed consolidated financial statements. Unrealized gains arising from transactions with associates are eliminated to the extent of the Group's interest in the enterprise. Unrealized gains arising from transactions with associates are eliminated against the investment in the associate. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

Notes to the interim condensed consolidated and separate financial statements for the six months period ended 30 June 2022

3. SIGNIFICANT ACCOUNTING POLICIES

The Group applied in 2022 the same accounting policies for the Consolidated and Separate Financial Statements as for December 2021, with the exception of the new standards and interpretations that appeared on January 1, 2022.

The Group reclassified certain amounts after publishing the consolidated and separate financial statements as at 31 December 2021 in order to ensure the comparability of the data and information with the current year presentation, as below.

• Consolidated and separate statement of financial position

The amount of 174,956 RON thousands for the Group representing withdrawals from IFC (International Finance Corporation) and intended for the granting of financings, was reclassified from caption "Loans from banks" to caption "Deposits from customers".

The Group also reclassified certain amounts related to six months' period ended at 30 June 2021 but after publishing the interim condensed consolidated financial statements as at 30 June 2021, as presented below.

• Consolidated and separate statement of comprehensive income

- (i) "Interest Income" caption in amount of 819,385 RON thousands for the Group, was split between:
- "Interest income using EIR" caption in amount of de 753,725 RON thousands;
 - "Other interest incom" caption in amount of 65,660 RON thousands;
- (ii) "Net impairment losses on financial assets" caption in amount of -44,188 RON thousands for the Group/ -23,371 RON thousands for the Bank, has been recalculated at value of -49,529 RON thousands for the Group/ -27,463 RON thousands for the Bank by including the net expense/income with provisions for financial guarantees and off-balance sheet commitments;
- (iii) "Net operating income" caption has been recalculated at value of 508,585 RON thousands for the Group/ 411,992 RON thousands for the Bank (compared to the amount presented previously 558,179 RON thousands for the Group/ 439,520 RON thousands for the Bank);
- (iv) "Net provision gains/(losses)" caption in amount of 2,336 RON thousands for the Group/ -4,478 RON thousands for the Bank has been recalculated at value of 7,677 RON thousands for the Group/ -386 RON thousands for the Bank, by excluding the net expense/income with provisions for financial guarantees and off-balance sheet commitments;

• Consolidated and separate statement of cash flows

- (i) The "Net cash used in operating activities" caption in amount of -2,948,222 RON thousands for the Group / -3,222,380 RON thousands for the Bank has been recalculated at value of -3,746,491 RON thousands for the Group/ -4,020,649 RON thousands for the Bank, by excluding the value of (Increase)/Decrease in financial assets at fair value through profit and loss/other comprehensive income (798,269 RON thousands for the Group/Bank);
- (ii) The "Net cash (used in)/from investing activities" caption in amount of -42,543 RON thousands for the Group / -40,665 RON thousands for the Bank has been recalculated at value of 755,726 RON thousands for the Group/ 757,604 RON thousands for the Bank, by including the value of (Increase)/Decrease in financial assets at fair value through profit and loss/other comprehensive income (798,269 RON thousands for the Group/Bank).

New Standards and Interpretations

Initial application of new amendments to the existing standards effective for the current reporting period

The following amendments to the existing standards issued by the International Accounting Standards Board (IASB) and adopted by the EU are effective for the current reporting period:

- Amendments to **IFRS 16 "Leases"** - Covid-19-Related Rent Concessions beyond 30 June 2021 adopted by the EU on 30 August 2021 (effective from 1 April 2021 for financial years starting, at the latest, on or after 1 January 2021);

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

New Standards and Interpretations (continued)

- Amendments to **IAS 37 “Provisions, Contingent Liabilities and Contingent Assets”** - Onerous Contracts - Cost of Fulfilling a Contract adopted by the EU on 28 June 2021 (effective for annual periods beginning on or after 1 January 2022);
- Amendments to various standards due to **“Improvements to IFRSs (cycle 2018 -2020)”** resulting from the annual improvement project of IFRS (IFRS 1, IFRS 9, IFRS 16 and IAS 41) primarily with a view to removing inconsistencies and clarifying wording (The amendments to IFRS 1, IFRS 9 and IAS 41 are effective for annual periods beginning on or after 1 January 2022. The amendment to IFRS 16 only regards an illustrative example, so no effective date is stated.);
- Amendments to **IAS 16 “Property, Plant and Equipment”** - Proceeds before Intended Use adopted by the EU on 28 June 2021 (effective for annual periods beginning on or after 1 January 2022);
- Amendments to **IFRS 3 “Business Combinations”** - Reference to the Conceptual Framework with amendments to IFRS 3 adopted by the EU on 28 June 2021 (effective for annual periods beginning on or after 1 January 2022);

The adoption of amendments to the existing standards has not led to any material changes in the Group’s interim condensed consolidated and separated financial statements.

Standards and amendments to the existing standards issued by IASB and adopted by the EU but not yet effective

At the date of authorisation of these interim condensed consolidated and separated financial statements none of the amendments to the existing standards / new standards nor interpretations issued by the International Accounting Standards Board (IASB) and not yet effective were adopted by the European Union.

New standards and amendments to the existing standards issued by IASB but not yet adopted by the EU

At present, IFRS as adopted by the EU do not significantly differ from regulations adopted by the International Accounting Standards Board (IASB) except for the following new standards and amendments to the existing standards, which were not endorsed for use in EU as at publishing date of these interim condensed consolidated and separate financial statements (the effective dates stated below is for IFRS as issued by IASB):

- Amendments to **IAS 1 “Presentation of Financial Statements”** - Classification of Liabilities as Current or Non-Current (effective for annual periods beginning on or after 1 January 2023);
- **IFRS 17 “Insurance Contracts”** including amendments to IFRS 17 (effective for annual periods beginning on or after 1 January 2023);
- Amendments to **IAS 1 “Presentation of Financial Statements”** - Disclosure of Accounting Policies (effective for annual periods beginning on or after 1 January 2023);
- Amendments to **IAS 8 “Accounting Policies, Changes in Accounting Estimates and Errors”** - Definition of Accounting Estimates (effective for annual periods beginning on or after 1 January 2023);
- **Amendments to IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures”** - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture and further amendments (effective date deferred indefinitely until the research project on the equity method has been concluded); (effective for annual periods beginning on or after 1 January 2023)

The Group has decided not to adopt these new standards in advance before the date of entry into force.

The Group anticipates that the adoption of these new standards and amendments to the existing standards will have no material impact on the financial statements of the Group in the period of initial application.

Hedge accounting for a portfolio of financial assets and liabilities whose principles have not been adopted by the EU remains unregulated.

Notes to the interim condensed consolidated and separate financial statements for the six months period ended 30 June 2022

4. RISK MANAGEMENT

There were no significant changes in the Group's financial risk management policies compared to those presented in the Consolidated and Separate Financial Statements for the financial year ended 31 December 2021.

Credit risk

Exposure to credit risk

Throughout the "Exposure to credit risk" notes and disclosures, "Group" includes UniCredit Bank S.A., UniCredit Consumer Financing IFN S.A ("UCFIN") and UniCredit Leasing ("UCLC") for loans to customers, both for on balance sheet exposures and off balance sheet exposures. Lease receivables, belonging to UniCredit Leasing IFN S.A. ("UCLC") are separately reported due to the fact that the business model and the related credit risk drivers are significantly different as compared to the Bank's and UCFIN's.

Throughout this chapter all the amounts contain the effect of Interest adjustments for impaired loans (IRC). As such, gross value of the loans and allowance for impairment are presented including IRC.

*) Carrying amount for off balance includes the provisions booked in balance sheet in line "Provisions".

For June 2022, a managerial overlay is considered only in case of anticipation of forward looking impact from clients expected to access moratoria OUG90/2022 and would be classified as forborne in stage 2 in the future. The managerial overlay is to be applied only as a temporary approach and will be switched off in the moment of setting up in the system of all moratoria granted (and the final effect in ECL will be retrieved via regular process, via regular punctual models / parameters applied on cases with moratoria booked). Total impact booked from managerial overlay in June was of 24 Mio RON on Bank side and 31 Mio ron consolidated figure.

In light of the highly uncertain macro context because of the Russia - Ukraine crises and the relevant potential future effects, the forward looking parameters used as input for LLP calculation were reviewed (within usual half yearly process update) with an impact as of June 2022 of 128 Mio RON on Bank standalone and 156 Mio RON on consolidated basis.

Notes to the interim condensed consolidated and separate financial statements for the six months period ended 30 June 2022

4. RISK MANAGEMENT (continued)

Credit risk (continued)

The tables below present for the Group the breakdown of loans to customers by **business segment** and **asset quality types**, including also the allocated **collaterals** for the respective asset quality classes, separately for on balance sheet exposures and off balance sheet exposures.

The value of collaterals presented in the following tables from this chapter represents the market value capped at individual loan exposure level and further more adjusted (haircuts applied) as per internal procedure regarding loan impairment computation. The value of collaterals disclosed in the narrative disclosures under the above mentioned tables represent market value of collaterals before any haircuts applied.

The tables above is the same also for the Bank.

Loans and advances to banks at amortized cost In RON thousands	Group		Bank	
	30.06.2022	31.12.2021	30.06.2022	31.12.2021
Investment-grade	580.099	493.611	580.096	493.611
Total	580.099	493.611	580.096	493.611

The analysis is based on the ratings issued by Standard & Poor, if available, or by Moody's and Fitch converted to the nearest equivalent on the Standard & Poor rating scale.

The investment-grade category includes loans to banks for which the debtor has the following ratings: A+, A, A-, BBB+, BBB, BBB-, BAA1 and BAA3.

The Non-investment grade category includes loans to banks for which the debtor has the following ratings: BB+, BB- and B+.

The No-rating category includes loans to banks for which the debtor has no ratings.

5. USE OF ESTIMATES AND JUDGEMENTS

The Group makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are periodically evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

a) Key sources of estimation uncertainty

Identification and measurement of impairment - Prospective information for the calculation of value adjustments

Loans and advances to customers, loans and advances to banks and debt instruments classified as financial assets at amortized cost, financial assets at fair value through comprehensive income (with the exception of equity instruments) and relevant off-balance sheet exposures are tested for impairment as required by IFRS9.

In this regard, these instruments are classified in stage 1, stage 2 or stage 3 according to their absolute or relative credit quality with respect to initial disbursement. Specifically:

- stage 1: includes (i) newly issued or acquired credit exposures, (ii) exposures for which credit risk has not significantly deteriorated since initial recognition, (iii) exposures having low credit risk (low credit risk exemption);
- stage 2: includes credit exposures that, although performing, have seen their credit risk significantly deteriorating since initial recognition;
- stage 3: includes impaired credit exposures.

For exposures in stage 1, impairment is equal to the expected loss calculated over a time horizon of up to one year. For exposures in stages 2 or 3, impairment is equal to the expected loss calculated over a time period corresponding to the entire duration of the exposure.

The Group has developed specific models for calculating the expected loss; such models are based on the parameters of Probability of Default (PD), Loss Given Default (LGD), Exposure at Default (EAD) and on the effective interest rate. In particular:

- the PD represents the probability of occurrence of an event of default of the credit exposure, in a defined time lag (i.e. 1 year);
- the LGD represents the percentage of the estimated loss, and thus the expected rate of recovery, at the date of occurrence of the default event of the credit exposure;
- the EAD (Exposure at Default) represents the measure of the exposure at the time of the event of default of the credit exposure;
- the Effective interest rate is the discount rate that expresses of the time value of money.

The expected credit loss deriving from the parameters described in the previous paragraph considers macroeconomic forecasts through the application of multiple scenarios to the “forward looking” components in order to compensate the partial non-linearity naturally present in the correlation between macroeconomic changes and credit risk. Specifically, the non-linearity effect was incorporated through the estimation of an overlay factor directly applied to the portfolio Expected Credit Loss.

The process defined to include macroeconomic multiple scenarios is fully consistent with macroeconomic forecast processes used by the Group for additional risk management objectives (as for example processes adopted to calculate expected credit losses from macroeconomic forecasts based on EBA stress test and ICAAP Framework) and also took advantage of independent UniCredit Research function. The starting point was therefore fully aligned while the application is differentiated in order to comply with different requirements using internal scenarios only.

In particular, UniCredit Group has selected three macroeconomic scenarios to determine the forward looking component, a baseline scenario, a positive scenario and a negative scenario. The probabilities are set at 60% for the baseline scenario, 40% for the negative scenario and 0% for the positive scenario (31 December 2021: 55% for the baseline scenario, 40% for the negative (pandemic “mild”) scenario and 5% for the positive scenario).

The baseline scenario (“Baseline”) is the main scenario and, indeed, is expected to be the one with the highest likelihood of occurrence and is coherent with the assumptions used in the planning processes. The positive and the negative scenario represent alternative occurrences, either better or worse when compared to the baseline scenario in terms of evolution of the economies of the countries where the Group operates.

5. USE OF ESTIMATES AND JUDGEMENTS (continued)

a) Key sources of estimation uncertainty (continued)

The baseline scenario (“Baseline”) (probabilities set at 60%) considering the followings:

- The global economic outlook has worsened. The Russia-Ukraine crisis has caused a sharp rise in commodities prices and inflationary pressure, further global supply-chain disruption, a tightening of financial conditions, heightened uncertainty, and a sharp drop in consumer confidence. Global central banks will walk a thin line as the growth-inflation trade-off deteriorates. Assuming no major disruptions of energy supplies from Russia, Eurozone Real GDP is expected to expand by 2.6% in 2022, 1.9% in 2023 and 1.7% in 2024. Russia is expected to shrink by 10% in 2022 with a muted rebound in 2023-2024 akin to stagnation;
- For FX rates, the baseline scenario envisages a mild and gradual appreciation of the CZK and a mild depreciation for the RON, the HUF and the RSD. For the RUB, the exchange rate vs. the EUR is expected to remain broadly stable in 2022, significantly increase in 2023 and remain at high levels in 2024;
- As inflation builds up as a result of the increase in energy price and the supply disruptions, ECB is changing its monetary stance and market is repricing interest rate expectations;
- In terms of monetary policy, in the eurozone, the ECB is expected to take further steps in normalizing its monetary policy and raising interest rates. The phasing-out of stimulus is likely to happen gradually to maintain ample liquidity conditions. In CE & EE, in 2022, the scenario assumes further hikes in almost all countries while in Russia policy rate is expected to remain mostly at current levels despite the inflation acceleration;
- With reference to Interest rate, as monetary policy is normalizing, short term and MM rates are expected to increase. Long maturity yields are also expected to rise, both in US and Eurozone.

The **Advers** (Severe case Recession) has a probabilities set at 40% and considering the followings

- it assumes an escalation of the conflict with restricted gas supply, higher energy prices compared to Baseline that result in a Recession for most Western European countries in 2023. Governments will keep expansionary policies in place to mitigate the spillover effects of conflict in Ukraine (e.g., disrupting trade, shortages of materials, and high energy and commodity prices). After expanding by 5.4% in 2021, Eurozone GDP would: (i) increase by 1.5% in 2022 (-1.1pp compared to baseline), (ii) followed by a recession of -2.0% in 2023 (-3.9pp vs bl) and a mild expansion of 2.0% in 2024 (+0.3pp vs bl);
- Inflationary forces materialize, as supply-side disruption intensifies together with higher oil prices. As a result, Eurozone headline inflation spikes at 8.5% in 2022, which is well above the tolerance threshold of the ECB. Inflation will reduce in '23 at 6.4% and close to ECB target at 1.9% in '24;
- Because inflation is expected to be temporary and mainly due to exogenous shocks, Monetary policy responds to the deterioration in the outlook for growth by remaining reasonable supportive. Policy rates in the Euro area and in the US are expected to increase by less than in the baseline.

The forecasts in terms of changes in the “Default rate” and in the “Recovery Rate” provided by the Stress Test functions are included within the PD and LGD parameters during calibration. Credit parameters indeed, are normally calibrated over a horizon that considers the entire economic cycle (“Through-the-cycle – TTC”), it is thus necessary a “Point-in-time – PIT” calibration and a “Forward-looking – FL” one that allows to reflect in those credit parameters the current situation and the expectations about the future evolution of the economic cycle.

In this regard, the PD parameter is calculated through a normal calibration procedure, logistics or Bayesian, using as anchorage point an arithmetic average among the latest default rates observed on the portfolio and the insolvency rates foreseen by the Stress Test function. The PD determined in such way will lose his through the cycle nature in favour of a Point in time and Forward looking philosophy.

The LGD parameter is made Point in time through a scalar factor that allows to take into account the ratio between average recoveries throughout the period and recoveries achieved in previous years. The inclusion of forecast within the LGD parameter is performed by adjusting the yearly “recovery rate” implicit in this parameter to take into account the expectations of variations of recovery rates provided by the Stress Test function.

Notes to the interim condensed consolidated and separate financial statements for the six months period ended 30 June 2022

5. USE OF ESTIMATES AND JUDGEMENTS (continued)

a) Key sources of estimation uncertainty (continued)

Allowances for loan losses

The Group reviews its loan portfolios to assess impairment at least on a monthly basis. In determining whether an impairment loss should be recorded in the income statement, the Group makes judgments as to whether there is any observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of loans before the decrease can be identified with an individual loan in that portfolio. This evidence may include observable data indicating that there has been an adverse change in the payment status of borrowers in a group, or national or local economic conditions that correlate with defaults on assets in the group.

The loan impairment assessment considers the visible effects on current market conditions on the individual/collective assessment of loans and advances to customers' impairment. The Group has estimated the impairment loss provision for loans and advances to customers based on the internal methodology harmonized with UniCredit SpA policies. Because of the uncertainties on the local financial markets regarding assets valuation and operating environment of the borrowers, that Group's estimate could be revised after the date of the approval of the interim condensed consolidated financial statements.

The Group applies probabilities to the forecast scenarios identified. The base case scenario is the single most – likely outcome and consists of information used by the Group for strategic planning and budgeting. The table below summarizes the main macroeconomic indicators included in the baseline economic scenarios used at 30 June 2022:

Country	Macroeconomic scenario	Base scenario		
		2022	2023	2024
Romania	Real GDP, yoy % change	2.5	2.7	3.2
Romania	Inflation (CPI) yoy, eop	12.6	7.4	3.5
Romania	Unemployment rate, %	5.5	5.5	5.3
Romania	Short term rate, eop	6.0	5.5	4.25
Romania	Long-term interest rates 10y (%)	7.5	6.5	5.0
Romania	House Price Index, yoy % change	4.8	4.5	4.0

The table below summarizes the main macroeconomic indicators included in the baseline economic scenarios used at 31 December 2021:

Country	Macroeconomic scenario	Base scenario		
		2022	2023	2024
Romania	Real GDP, yoy % change	5.0	4.0	4.0
Romania	Inflation (CPI) yoy, eop	3.3	3.4	2.5
Romania	Unemployment rate, %	4.5	4.0	3.8
Romania	Short term rate, eop	1.84	2.04	2.14
Romania	Long-term interest rates 10y (%)	4.0	3.7	3.5
Romania	House Price Index, yoy % change	7.0	5.0	5.0

Notes to the interim condensed consolidated and separate financial statements for the six months period ended 30 June 2022

5. USE OF ESTIMATES AND JUDGEMENTS (continued)

a) Key sources of estimation uncertainty (continued)

Sensitivity analysis for assets at fair value through other comprehensive income

The fair value of financial assets at fair value through other comprehensive income is directly dependent on the market yield variable and its changes impact the financial position and the net assets of the Group.

In case the market yield varies by +/-10 percent, the negative reserve recorded as at 30 June 2022 on financial assets at fair value through other comprehensive income would vary as follows:

30.06.2022 In Thousand RON	Bank	
	Market Yield -10%	Market Yield +10%
Financial assets at fair value through other comprehensive income denominated in RON	36,256	(34,570)
Financial assets at fair value through other comprehensive income denominated in EUR	12,744	(12,272)
Financial assets at fair value through other comprehensive income	49,000	(46,842)

In case the market yield varies by +/-10 percent, the negative reserve recorded as at 31 December 2021 on financial assets at fair value through other comprehensive income would vary as follows:

31.12.2021 In Thousand RON	Bank	
	Market Yield -10%	Market Yield +10%
Financial assets at fair value through other comprehensive income denominated in RON	26,307	(25,535)
Financial assets at fair value through other comprehensive income denominated in EUR	3,285	(3,217)
Financial assets at fair value through other comprehensive income	29,592	(28,752)

b) Critical accounting judgments in applying the Group's accounting policies

Financial assets and liabilities classification

The Group's accounting policies provide scope for assets and liabilities to be designated on inception into different accounting categories.

The classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Group determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated.

Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

Notes to the interim condensed consolidated and separate financial statements for the six months period ended 30 June 2022

5. USE OF ESTIMATES AND JUDGEMENTS (continued)

b) Critical accounting judgments in applying the Group's accounting policies (continued)

Qualifying hedge relationships

In designating financial instruments in qualifying hedge relationships, the Group has determined that it expects the hedges to be highly effective over the period of the hedging relationship. In accounting for derivatives as cash flow hedges, the Group has determined that the hedged cash flow exposure relates to highly probable future cash flows.

Determining fair values

The fair value of financial instruments that are not traded in an active market (for example, unlisted treasury securities and certificates of deposit) is determined by using valuation techniques. The Group uses its judgment to select the valuation method and make assumptions that are mainly based on market conditions existing at each reporting date.

The classification of FVTOCI assets between quoted and unquoted financial instruments is presented below:

30.06.2022 In Thousand RON	Listed*	Group Unlisted	Total	Listed*	Bank Unlisted	Total
Debt securities at fair value through other comprehensive income	1,631,137	190,388	1,821,525	1,631,137	190,388	1,821,525
Equity instruments at fair value through other comprehensive income	-	6,709	6,709	-	4,363	4,363
Total assets held at fair value through other comprehensive income	1,631,137	197,097	1,828,234	1,631,137	194,751	1,825,888

*) Listed financial instruments are those quoted on organized and regulated capital market

31.12.2021 In Thousand RON	Listed*	Group Unlisted	Total	Listed*	Bank Unlisted	Total
Debt securities at fair value through other comprehensive income	1,639,118	29,868	1,668,986	1,639,118	29,868	1,668,986
Equity instruments at fair value through other comprehensive income	-	8,429	8,429	-	6,083	6,083
Total assets held at fair value through other comprehensive income	1,639,118	38,297	1,677,415	1,639,118	35,951	1,675,069

*) Listed financial instruments are those quoted on organized and regulated capital market

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- **Level 1:** Quoted market price (unadjusted) in an active market for an identical instrument to which the Bank has access at the measurement date. A quoted price on an active market provides the most reliable evidence (as for example the price) or indirect without other adjustments in determining the fair value anytime available.
- **Level 2:** Valuation techniques based on observable inputs, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- **Level 3:** Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category is for instruments that are valued based on unobservable assumptions.

Notes to the interim condensed consolidated and separate financial statements for the six months period ended 30 June 2022

17. NET FINANCIAL LEASE RECEIVABLES

The Group acts as lessor for the finance lease granted mainly to finance purchases of cars, trucks and trailers, equipment and real estate. Lease contracts are mainly in EUR, USD and RON, and are offered for a period between 1 and 15 years, transferring the ownership on the leased assets at the end of lease contract. The interest is invoiced over the lease period using equal instalments. Lease receivables are guaranteed by the goods leased and other guarantees.

The values below indicate the gross carrying amount and the adjustment for impairment including IRC. The split of net lease receivable by stages and by maturities is presented in the following table below:

in RON thousands	UCLC (Unicredit Leasing Corporation)			
	Total, of which	30.06.2022		
		Stage 1	Stage 2	Stage 3

Transactions with key management personnel

A number of banking transactions are entered into with key management personnel (executive management, administrators and managers of the Group) in the normal course of business. These mainly include loans, current accounts and deposits. The volumes of related-party transactions are presented in the below tables:

In RON thousands	Group	
	30.06.2022	31.12.2021
Loans	7,174	6,788
Current accounts and deposits	18,238	16,163

In RON thousands	Group	
	30.06.2022	30.06.2021
Interest and similar income	83	82
Interest expenses and similar charges	(38)	(47)

In addition to wages, the Bank provides executive directors and executives with non-monetary benefits and participation in the UniCredit Holding's options scheme. The UniCredit Group's Scheme of Compliance fully complies with the Group's legal provisions and Compensation Policy.

27. COMMITMENTS AND CONTINGENCIES

i) Off-balance-sheet commitments

At any time, the Group has outstanding commitments to extend credit. These commitments take the form of approved loans and credit card limits and overdraft facilities. Outstanding loan commitments have a commitment period that does not extend beyond the normal underwriting and settlement period of one month to one year.

The Group provides financial guarantees and letters of credit to guarantee the performance of customers to third parties. These agreements have fixed limits and generally extend for a period of up to one year. Maturities are not concentrated in any period.

The contractual amounts of commitments and contingent liabilities are set out in the following table by category. The amounts reflected in the table for commitments assume that amounts are fully advanced. The amounts reflected in the table for guarantees and letters of credit represent the maximum accounting loss that would be recognised at the end of reporting period if counterparties failed completely to perform as contracted.

The Bank acts as a security agent, payment agent and hedging agent for a series of loan contracts between UniCredit Bank SpA and other entities within UniCredit Group as lender and Romanian companies as borrowers. For each of these contracts there is a risk participation agreement by which the Bank is obliged to indemnify UniCredit SpA or the other entities within UniCredit Group. The total amount of such risk participation agreements in force as at 30 June 2022 is EUR 11,053,590 (31 December 2021: EUR 13,842,420).

As compensation for the financial guarantees assumed by the risk participation agreements and for providing security and payment agent services to UniCredit SpA, the Bank receives the commissions paid by the borrowers plus a portion of the interest margin collected from the borrowers. The Bank defers the commissions collected upfront from the risk participation agreements over the time period that remains until the maturity of the facilities.

27. COMMITMENTS AND CONTINGENCIES *(continued)*

ii) Litigations

As at 30 June 2022, the Group was involved in several litigations (as a defendant) for which, based on legal advice, has assessed that a provision amounting to RON thousands 16,678 (31 December 2021: RON thousands 15,087) is necessary to be booked.

As at 30 June 2022, the Bank was involved in several litigations (as a defendant) for which, based upon legal advice, has assessed that a provision amounting to RON thousands 8,317 (31 December 2021: RON thousands 5,942) is necessary to be booked for these claims. In addition, in 2016, a general provision of RON thousands 3,850 was set, being maintained both 2020 and 2021 to ensure a conservative approach to the related provisions.

.

28. OPERATING SEGMENTS

The segment report format is based on the internal reporting structure of business segments, which reflects management responsibilities in the Bank.

Notes to the interim condensed consolidated and separate financial statements for the six months period ended 30 June 2022

29. MACROECONOMIC CONTEXT

29.1 Trend of economy

Large statistical revisions to 2021 data turned Romania from a growth laggard into one of the EU's top performers and postponed the risk of a technical recession. The outstanding growth published for the first quarter of 2022 (5.2% qoq, 6.5% yoy) relied on four sectors, namely trade, IT, support services and real estate services. For the latter three, the National Institute of Statistics (NIS) reported price declines compared to first quarter of 2021, in contrast to rising producer and consumer prices. Data revisions force economists to increase GDP growth expectations significantly to approximately 4.2% in 2022 from 1.4% previously, with the carryover accounting for the whole upgrade. However, the nominal GDP forecast remains almost unchanged, since 1Q22 forecast was equal to the level published by the NIS.

Signals from the economy suggest that domestic demand is decreasing after significant increase in the spring. Facing higher prices and interest rates, households increased purchases in 1H22 and spent most of the precautionary savings accumulated in 2020-21, while also borrowing more. However, inflation is likely to outpace wage growth from here on, with salaries rising faster in sectors in which they lagged in 2020-21 or where labor shortages are high (IT, retail, leisure services and construction). Negative real wage growth is likely to slow growth in private consumption and lending.

In 2021-22, investment has been driven by real estate projects, with non-residential overtaking housing recently. However, construction is one of the most leveraged sectors in Romania and higher borrowing costs could eventually weigh on new building starts. Public investment increased by 7% this year, helped by EUR 3.8bn in prefunding from the RRF, but it could slow if the government does not receive soon the first RRF tranche of almost EUR 3bn (1.1% of GDP). Productive investment continues to rely heavily on reinvested profits, while the pipeline of new investment projects could be affected again by the uncertain tax outlook.

29.2 COVID- 19 – updates in 2022

Although the pandemic situation improved significantly during 2021 and in first half of 2022 and it had a lower impact on economic activity, most of the support measures from 2020 were efficient and were continued in order to avoid the potentially negative consequences of a too early withdrawal of stimulus. Thus, the government support measures for employers (such as furlough support, facilities for employing young graduates or unemployed over 45 years old and several other measures) were kept in place in 2021, while the moratorium on loans was extended until March 2021. At the same time, the "IMM Invest" program was allocated RON 15bn in 2021 in loans to SMEs, while large companies (turnover > EUR 20mn) benefitted as well from government support programs. Moreover, the first NRRP transfers arrived at the turn of 2021, totaling around EUR 3.8bn. Next Generation EU (NGEU) grants and delayed transfers from the 2014-2020 EU budget are expected to support public investment in 2022 and beyond.

29.3 Financial impact of Covid-19 outbreak on the financial & prudential position of the Group

After a year 2021 with difficult market conditions in the context of the pandemic, in first half of 2022 the lending accelerated, both in the Companies segment and in the Individuals segment, through newly financed volumes higher than the similar period of last year. Operating income was over the first half of 2021, supported by commission income and net interest income due to the increase in trade volumes. In the first six months of 2022, the cost of credit risk improved due to the quality of the loan portfolio, significant recoveries and the resumption of payments from customers who benefited from their suspension in the context of the pandemic, and the non-performing loans rate decreased gradually.

Regarding **UCLC**, the newly financed volumes signed are 1.3% above the previous year, while interest income was higher than the previous year, as were other types of operating income, contributing to a higher Gross Operating Profit than the previous year and the budgetary estimates.

Also in case of **UCFIN** there was an acceleration of the lending activity of natural persons for personal needs, simultaneously with a significant improvement of the quality of the portfolio as well as of the activity of collecting outstanding debts.

The Group has a limited estimate of the impact of Covid-19 on its future financial position due to significant uncertainties, but has analyzed several scenarios and considers that the assessment of the business continuity principle is appropriate and there is no risk in this regard over the next 12 months.

Notes to the interim condensed consolidated and separate financial statements for the six months period ended 30 June 2022

30. SUBSEQUENT EVENTS

There is no significant subsequent event after the end of reporting period.

The interim condensed consolidated and separate financial statements were approved by the Management Board on 22 July 2022 and were signed on its behalf by:

Mr. Catalin Rasvan Radu
Chief Executive Officer

Mrs. Feza Tan
Executive Vice-President
