COMMISSIONS & INTEREST RATES FOR LOANS FOR PRIVATE INDIVIDUALS

Document valid from: 01.10.2024

INTRODUCTION:

This document refers to fees and commissions for private individuals' customers.

The costs of other entities like cost of Post Office, telex messages, phone calls, correspondent bank fees and of clearing and settlement houses are not included and will be charged at their real rate. Taxes for a certain transaction will be charged separately, in the same way.

Fees are payable in the currency of the transaction or equivalent Lei, as applicable, with the provisions of Regulation 4/2005 on the exchange regime with subsequent amendments. UniCredit Bank reserves the right to change at any times the fees and commission, considering his policy and exchange rates fluctuation.

for special cases

¹It is intended for the purchase of a completed house classified in energy efficiency class A or superior (according to the energy performance certificate).

² The Discount of the annual interest rate will be applied under the conditions and situations provided in the loan contract, following the

² The Discount of the annual interest rate will be applied under the conditions and situations provided in the loan contract, following the fulfillment of (i) the Monthly turnover condition, representing the obligation to ensure a total monthly credit turnover through the current accounts of the Borrower who signed the credit application as Applicant, opened at UniCredit Bank, which represents at least 70% of its income taken into account by the Bank for granting the loan and (ii) the Life insurance condition representing the obligation of the Borrower who signed the loan application as Applicant to conclude and maintain during the loan period a life insurance policy.

³ Monthly administration fee is calculated at loan balance and owned to FNGCIMM is different depending on the value of the transaction (loan granted + down payment) equivalent in LEI, at the NBR exchange rate valid on the pre-contract sale-purchase date: (i) 0,0126% at loan balance, if the value of the transaction DOES NOT EXCEED the value of EUR 70,000; (ii) 0.0151% at loan balance, if the value of the transaction is between EUR 70,001 - EUR 140,000, option available only in the case of dwellings received at the end of the works up to 5 years before the date of requesting the loan. In the example, a house was considered according to those mentioned in letter (ii) above.

⁴ Life insurance is mandatory for the New Home Loan and the Refurbishment Loan/ energy performance improvement, and it is optional, but it is necessary to fulfill one of the conditions for applying the reduced interest rate for the Mortgage/Housing Loan for the purchase of a home.

⁵ The notary costs, the guarantee registration/cancelation/modification in Electronic Archive, the guarantee/s registration/cancelation/modification in Land Registry, as well as the real estate insurance is not known by the lender and therefore are not included in the casts are not known to the bank and will not be included in the DAE.

The mortgage loan must be secured with a mortgage on the

The mortgage loan must be secured with a mortgage on the house purchased from the loan, and the housing loan with a mortgage on a

house, with insurance of the mortgaged property for the entire duration.

Warning! By obtaining this type of loan you will be exposed to the following risks which may affect your repayment capacity: the fluctuation of your incomes, the variation of the reference index IRCC which can lead to the interest rate increase and the increase of the monthly

amounts to be reimbursed.

According to the legal requirements, we inform you that concluding a credit contract in other currency than the one in which the incomes are obtained will expose you to the currency risk which may affect your repayment capacity. This risk occurs in the moment the loan currency appreciates compared to the currency of the incomes or the assets based on which the loan will be reimbursed, determining the increase of the monthly payment obligation.

Also, we inform you that you can conclude, at your own expense, an insurance contract for risk of default, a product offered by the insurance

companies.

You can conclude, at your own expense, an insurance contract for the financial risk of non-payment, offered by insurance companies. In the case of repayment in equal monthly installments, the total value of the interest is higher than repayment in decreasing installments; the monthly interest rate. Since the loan balance value of the monthly principal installment at the beginning can be significantly lower than the monthly interest rate. Since the loan balance decreases slowly, in the case of early repayments even after many years of payment, the remaining amount to be paid may be only slightly lower than the initial value of the loan. However, you can always make partial early repayments or change the repayment method.

Note:

¹The Discount of the annual interest rate will be applied under the conditions provided in the loan contract, following the fulfillment of the Monthly turnover condition, representing the obligation to ensure a total monthly credit turnover through the current accounts of the Borrower who signed the credit application as Applicant, opened at UniCredit Bank, which represents at least 70% of its income taken into account by the Bank for granting the Overdraft.

² Not included in DAE / the calculation examples: The costs of registering, extending, canceling and modifying the security guarantees in RNPM because they are not known to the creditor; The APR for the overdraft is determined on the basis of the assumption that the limit is used in full on the date of granting through another bank's ATM, and will period on the basis of the assumption that the limit is fully withdrawn on the date of granting 40% in cash, at the ATM of another bank, and 60% through payments to merchants, the Borrower having to repay monthly, for the duration of the credit, the minimum monthly amount to be repaid, and in the last month the remaining difference from the principal.
